

New, Expanded Services Available: Ancillary Repair and Alterations

GSA MAS 874 V, Logistics Worldwide (LOGWORLD)

Introduction of Ancillary Repair and Alterations Special Item Number (SIN)

SIN 874-597, Ancillary Repair and Alterations (R&A) – which permits the addition of routinely needed work encountered during the performance of supply chain, distribution, transportation and other logistics services – has been added to GSA MAS 874 V, Logistics Worldwide (LOGWORLD). The introduction of ancillary R&A services is intended to save time previously spent on additional procurements, simplifying the acquisition burden and creating a better solution for your needs.

The addition of this ancillary R&A SIN provides a total solution for federal customers utilizing GSA MAS 874 V, LOGWORLD. Under the ancillary R&A SIN, products or services ordered under another SIN of this Schedule can be altered, delivered, repaired or installed. This SIN was specially developed to address projects that require additional related repairs or installation services – and now the additional work can be ordered as part of the GSA MAS 874 V, LOGWORLD.

Services Already Included in GSA LOGWORLD

Whenever you need complete logistics support, GSA MAS 874 V, LOGWORLD has it covered. The acquisition experts at GSA make it easy for you to access our vast selection of services, such as supply and value chain management, distribution and transportation logistics services, deployment logistics services, logistics training services, operation and maintenance logistics management and support services.

Companies currently available through GSA MAS 874 V, LOGWORLD are ready to provide support for all levels of requirements, from the simple to very complex, to meet both military and civilian requirements. These vendors possess a wealth of experience doing business with the military, but the comprehensive solutions offered are appropriate for use by both military and civilian agencies. And, with GSA, you are assured you will be in compliance with the Federal Acquisition Regulation (FAR). For a listing of Schedule vendors, visit www.gsaelibrary.gsa.gov and select “874 V” in the “Quick Schedule” search field.

Scope of Ancillary R&A SIN

R&A services ancillary to existing SINs of GSA MAS 874 V, LOGWORLD are:

- Solely associated with the repair, alteration, delivery or installation of products or services also purchased under this Schedule; and
- Routine and non-complex in nature, such as adding an electrical outlet so that the new inventory control computer can be installed, creating an opening in a wall so that a conveyor belt can go from a loading dock to storage, or placing a pedestrian door on a wall next to roll-up loading dock doors to reduce air conditioning losses.

SIN 874-597 excludes:

- Major or new construction of buildings, roads, parking lots and other facilities;
- Complex R&A of entire facilities or significant portions of facilities; and
- Architect–Engineering Services subject to Public Law 92-582 (Brooks Act).

The work performed under SIN 874-597 must be associated with existing SINs that are part of GSA MAS 874 V, LOGWORLD. Ancillary R&A shall not be the primary purpose of the work ordered but be an integral part of the total solution offered. Ancillary R&A services may only be ordered in conjunction with or in support of products and services purchased through GSA MAS 874 V, LOGWORLD.

SIN 874-597 does include all regulatory guidance outlined in accordance with FAR 36, including the Davis Bacon Act and the Miller Act.

Ordering Guidelines

- No award will be made under SIN 874-597, Ancillary Repair and Alterations unless an offeror is awarded (or receives award concurrently) for another SIN under this Schedule. The ancillary R&A work must be incidental to the primary products and services offered through GSA MAS 874 V, LOGWORLD.
- For federally owned space managed by GSA's Public Building Service (PBS), approval of the GSA PBS building manager must be received by the ordering activity and contractor before any repair and alteration work may be ordered. A copy of the approval must be retained by both the ordering activity Contracting Officer (CO) and the contractor.
- Owned or leased space outside the GSA PBS inventory may also include approval requirements. A copy of the approval must be retained by both the ordering activity CO and the GSA MAS contractor performing the ancillary R&A services.
- This SIN 874-597 shall not be used for GSA PBS leased space.
- Any agency CO ordering services through SIN 874-597 for ancillary R&A services is responsible for complying with his or her agency's internal policies when procuring. This may include a specific warrant delegation for procuring "construction" services when the estimated amount of this portion of the task order exceeds \$2,000 (Refer to FAR 22.4).
- Special notice to ordering agencies: GSA or other landlords may require re-performance of any nonconforming work at agency expense. If applicable, agencies may seek appropriate recourse from the contractor responsible for the nonconforming work.
